Recorded evidence

Amn uses electric voltage audio signals to carry out dark missions across spheres. Evidence of their work on the audio plane was first found in the common (human) plane calendar year 2020, on a magnetic tape recording by the name of [Lands of Intrigue](#) ([Mystic Timbre](#)). Subsequent audio evidence surfaced in the year 2022, on a magnetic tape recording by the name of [Shadows of Amn](#) ([Gondolin Records](#)). Magnetic tape and optical disc recordings by the name of [The Known Spheres](#) ([Engraven](#)) surfaced in the year 2025.

Appearances

Amn remained enigmatically absent from the common (human) plane until a sighting at the metaphysical, occult and phantastical gathering by the name of [Texas Dungeon Siege](#) in the year 2025, followed by a string of apparitions across the United States, referred to by certain scribes as the [DVNGEONVASION ov thee NATION](#).

Witnesses later confirmed Amn appeared at the DVNGEONVASION: The Regathering campaign across Bristol, Ashford and London, UK, with Flickers from the Fen, ORCUS and Silencio Permanente.

The last recorded Amn appearance in 2025 was at the Siege of the ancientmost cities of Athens and Thessaloniki in Greece.

In early 2026, many claim to have witnessed Amn appear at the outposts of Larisa, Thessaloniki, Tetovo and Pristina, in the southeast of the European continent.

We have now entered an era of heightened activity and increased dark missions carried out by Amn. The plan is already in motion. Many urge caution. Caution and other defenses have proven inadequate thus far.
